EXPERIENCE

Cloud Engineer Intern

VSI Joint Stock Company

08/2023 - 11/2023 Hanoi, Vietnam

- Designed and implemented a complete CI/CD pipeline using Jenkins, Docker, Ansible, and Nginx for automated deployment.
- Developed a simple web application with a frontend served via Nginx, packaged as a Docker image.
- Automated code integration to trigger pipeline processes, including building Docker images, deploying containers, and rolling back changes using Ansible.
- Configured Nginx to expose the web application, making it accessible through an IP address.
- Ensured real-time application updates after each code commit by integrating the pipeline with GitHub webhooks.
- Successfully optimized deployment workflows, reducing manual intervention and enhancing development efficiency.
